

Case Study | Managed MPLS

SimbaNET
...Keeping Africa Ahead

***“Leading Insurance company,
trust SimbaNET to provide Layer 3
Managed MPLS between its branches & HQ”***

Case Study | Managed MPLS

About Client

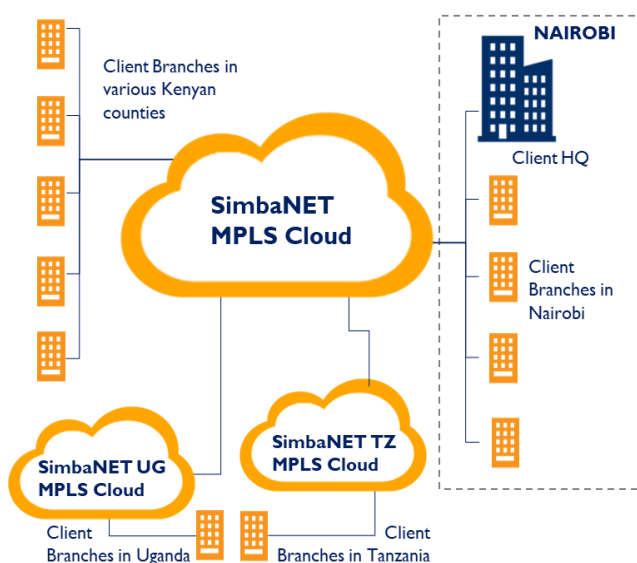

One of the leading insurance and financial services company headquartered in Kenya with a network of branches and operational subsidiaries spread across the greater eastern and central Africa regions. The group is supported by over 4,000 employees, 12 properties and a fund under management of \$ 1.41 billion.

Requirements | Challenges

Connect branches within Kenya and regional sites in Rwanda, Tanzania, Uganda and Southern Sudan. Proactive network monitoring & 24x7 Helpdesk availability for first and second level analysis with trouble ticket generation to work towards the problem resolution

Solution

SimbaNET implemented Wide Area Network (WAN) on Layer 3 Managed MPLS technology for connecting all Kenyan and other East Africa locations. Integrating all links to a 24x7 monitoring & support.

Benefits

- Secure Wide Area Network (WAN) on Layer 3 Managed MPLS technology for connecting all Kenyan and East Africa offices
- Faster resolution of all WAN issues with 24x7 support and monitoring
- Dynamic Managed Routing & Auto redundancy using BGP routing protocol
- Better and faster business communications
- Single SLA resulting in better management
