

MPLS

SimbaNET MPLS solution offers a secure, reliable & cost effective way to connect your Headquarter, Branch Offices, Remote Sites, Partners and Tele-Users.

We provide complete security for data in transit to ensure remote sites & employees have access to business applications & information. Connecting multiple sites via MPLS is a Business VPN-based service which protects all our client's information flows from end to end in more than 30 Countries.

A selection of the latest Value Added Services Portfolio is available along with MPLS. Offering SLA of up to 99.99%.

Features

- Our MPLS can be deployed using any of our access technologies from Fibre to VSAT
- Comes with pre-defined service bundles according to access, network & CPE resiliency options
- Multiple resilience options via diverse routing and separate access circuits
- Best in industry SLAs support for site Availability, Round Trip Delay, Packet Loss and Jitter
- 24x7 Monitoring
- Helpdesk includes customer usage and monitoring portal
- Up to 99.99% Service Level Agreement (SLA) covering the network
- Bandwidth options: ranges from 1 Mbps to 10 Gbps

Benefits

- Cost effective & scalable: New sites can be added quickly & easily without affecting existing sites
- Redundancy: During faults the data can be re-routed through the next optimum path with a failover time of 50ms or less
- Reliable: Our MPLS is a connection-oriented network unlike connection less networks; IP making it more reliable
- Maximum usage: MPLS networks typically require lower bandwidth than legacy networks due to in-built prioritisation
- True converged: Voice, data & video can be carried on the same network

Quick Facts

- SLA of up to 99.9%
- 100% Network Redundancy
- Tier I Global Partnerships
- Supporting +2000 customers in the region
- 24x7 Customer Support with Proactive Monitoring
- Over 200 Skilled & Certified engineers in the region
- Qualified Project Managers
- Dedicated Account Manager

About SimbaNET

SimbaNET is a member of Wananchi Group - A Licensed East African Public Data Operator with both Regional and International presence providing high-speed data & Internet Services over Fiber, LTE/4G & VSAT.

We have been in business for over 10 years providing telecommunications services in Africa. Our direct footprints include Kenya, Tanzania, Uganda, Zambia, Malawi and UAE. However, through our partners, we offer services in other countries such as Rwanda, Burundi, SA, Mozambique, Nigeria, Ghana, South Sudan and DRC.

Our Connectivity Solutions includes MPLS, IPLC, DPLC and VSAT.

We're not just about networks, we can also supply voice, security, mobility and cloud services in a Managed Model - acting as the single point of responsibility and ownership for your complete ICT solution.
