

Managed WiFi

With SimbaNET Managed WiFi solution our clients improve the way they work and engage with their employees and customers.

Managed WiFi is a cost-effective, reliable, and secure solution that helps businesses, schools, hotels, hospitals, and government entities take advantage of the power and convenience of wireless connectivity to enhance business productivity and customer satisfaction.

Features

- Full Coverage with multiple WiFi access points
- Bandwidth Management to ensure efficient usage
- Enhanced signal quality
- 24/7/365 network monitoring and support
- No costly capital expenses
- Affordable monthly operating expense model
- Custom designed solutions
- Dedicated solutions engineers on call
- Access Control and Access Zones
- Routing protocols
- Operational task management
- Periodic performance reports
- Intrusion Tests and Audits

Benefits

- **Full advantage of BYOD:** our solution allows multiple users and devices to connect securely to your local network as per the policies defined by you.
- **Enhanced working environment:** both staff & customers can access information and collaborate without being tied to an area or their workstations, while we ensure the data safety for you.
- **Engage closely with customers:** provide information and broadband benefits to your guests according to defined policies and bandwidth.
- **New revenue sources:** send marketing SMS tailored by location to influence your customers; leading to cross-sell and up-sell.

Our Managed Wi-Fi can help you deepen customer engagement by sending information of interest according to their location, or create new revenue streams through marketing activities.

Our Managed WiFi Approach

About SimbaNET

SimbaNET is a member of Wananchi Group - A Licensed East African Public Data Operator with both Regional and International presence providing high-speed data & Internet Services over Fiber, LTE/4G & VSAT.

We have been in business for over 10 years providing telecommunications services in Africa. Our direct footprints include Kenya, Tanzania, Uganda, Zambia, Malawi and UAE. However, through our partners, we offer services in other countries such as Rwanda, Burundi, SA, Mozambique, Nigeria, Ghana, South Sudan and DRC.

Our Connectivity Solutions includes MPLS, IPLC, DPLC and VSAT.

We're not just about networks, we can also supply voice, security, mobility and cloud services in a Managed Model - acting as the single point of responsibility and ownership for your complete ICT solution.
